It could do a commercial business, and in that way have a line of assets sufficiently large to enable it to issue volumes of currency to meet such emergencies as now confronts us.

"Of course, it should be understood that the central bank would not mean the elimination of the national bank. It would take the place of bank depositories, or, if you please, the money under a central bank would not be hoarded in New York. I would locate the central bank at Chicago, away from the speculative atmosphere in New York, and near the center of commerce and agriculture.
